- (25) When you book a trip, you will be dealing with me. I want to personalize our relationship beyond being someone who just does the paper work for your trip. (I am a retired camp owner/director and educator). I understand the ins and outs of recreational tours as I have been in your shoes before. The expression “been there, done that” puts me in a position of knowing all the work you go through to organize a trip.
- (26) After the trip is booked, I will send out confirmation and all the paper work that you will need. ie: driving directions, what to wear, where to go etc. etc. I will also send with this packet, **my home phone number**, just in case you have to get me in the evening with a question. How many group sales people will do that?
- (27) If you make multiple trips this winter, I have some extra rewards for you.
- (28) Want to see what we offer your group? We have a great promotional video on a DVD that we can send to you. It will show you why Catamount is right for you.
